

TOM HARTLEY JNR

1938 ALFA ROMEO 8C 2900B Lungo Spider by Touring
Grey with Black Leather
£SOLD

Mileage	47,184 miles	Engine Capacity	2900cc
Body Style	Convertible	Fuel	Petrol
Transmission	Manual	Chassis No.	412023

An Alfa Romeo 2900 is considered the ultimate variant of the fabled Alfa 8C and was the greatest car of its generation.

One of only seven 8C 2900B Touring Lungo Spiders ever produced and this particular example is regarded as the most original and finest of them all.

Remarkably retains all its original major components and benefitted from 36 years in single ownership.

A real "Best of Show"™ candidate for any of the world's great motoring events.

Documented by marque authority Simon Moore in his "The Immortal 2.9"™ book.

Considered one of the most beautiful cars ever made and a true technical and stylistic masterpiece.
