Transmission	Automatic	Chassis No.	771601

One of only seven left-hand drive Defender's redefined by renowned Land Rover specialists, Overfinch.

Finished in the sophisticated colour combination of Santorini black exterior paint with a contrasting signature painted silver bonnet and front grille over tan Bridge of Weir premium leather Recaro seats with contrast micro piping and stitching in black. Many redesign features are included from Overfinch, such as the front bumper with LED daytime running lights, black chrome with sand blast inner lettering side vent and wing top vent, Nolan headlights, aluminium door handle set, aluminium fuel cap, rear LED light upgrade pack, Defender rear bumper step, Defender checker plating set, teak loading space decking with drawer compartment, roll cage, bespoke SVX tonneau cover, Overfinch 18" Apollo wheels in gloss black finish, Overfinch pedal set, Overfinch knurled bright work pack, Alpine double din satellite navigation unit, sports instrument dials, leather steering wheel and carpet mats (Black with Pimento red pipe).

**TOM HARTLEY JNR**

In addition to the host of Overfinch enhancements the real excitement sits underneath, with the standard Defender 2198cc diesel engine replaced with a 6162cc Corvette LS3 V8 petrol engine that produces a whopping 450bhp! To handle its extra power the brakes have been updated to 6 piston brakes at the front (as opposed to the standard 4) and 4 piston brakes to the rear (as opposed to the standard 2). The engine is coupled to a six-speed automatic gearbox and a stainless-steel sports exhaust system to amplify the V8 burble, the result is euphonious.

In total, the cost new price to order a similar spec example through Overfinch today would be in excess of £250,000!
