£SOLD

| | | | |
|--------------|--------------|-----------------|--------|
| Mileage | 72,667 miles | Engine Capacity | 2341cc |
| Body Style | Coupe | Fuel | Petrol |
| Transmission | Manual | Chassis No. | 301360 |

A very rare right-hand drive example that benefits from a total restoration by marque and model specialists Roger Bray.

Previously owned by the ex Chairman of Porsche Club Great Britain who commissioned the restoration and ensured no stone was left unturned, which is evident when inspecting the car today.

Production completion date was July 1973 and it was delivered new through AFN (Porsche Cars Great Britain) with the optional extras of Head Rests, Collision Bar Rear and an Electric Sliding Sunroof, all of which it still retains today. The car also still boasts its all important matching number status.
